myinovasi.gov.my QA Test webview

#	Problem	Image	Remarks
		HOME PAGE	
1	UI		The gap is wide, make it less wide
2	UI		1. keep the dynamic resizing. Buy when one of it become 2 line sentence, it will be the only one with big button. 2. same case with 100% zoom. 3. the description doesn't match the button. For example, submit a problem. The desc should be "your challenge could spark...". Currently all are mismatch decs. 4.change problem statement bank into "solve a problem"
			1. zoom 110%
3	Navbar		1. for anything with "A" make it into small letter. Like Solve A Problem -> Solve a Problem. 2. then Submit Problem Statement, change into Submit a Problem.
4	footer		Inconsistent highlight. Remove underlining
			1. Use the same quick link style. 2. NAIO is blocked 3. add the MyDIGITAL Corp to the footer to match the wording

		Powered by Kementerian Digital | MyDIGITAL Corp | JDN | MDEC | NAIO	
SUBMIT A PROBLEM PAGE			
1	View Guideline Button		1. Remove outline and shadow 2. its too tight, make some space for the button.
2	Email request OTP		When filled the wrong format, it shows error, but the request button missing
			When request OTP with no fill, the button missing
			Change to "Request OTP"
3	Contact form		When I spam 0 until the limit, then I can fill it with gibberish.
4	Designation drop down		Fix the designation drop down from overlay
5	Category & Subcategory Drop down		Fix the Category & Subcategory drop down from overlay
6	Government body dropdown		Fix the drop down

7	Email OTP		After verified, still show this.
8	Submit action		1. I fill up the form up until category. But not context downward. When I clicked submit, it doesn't show me any error, but cannot submit. 2. I doesn't fill up any form but submit, the web will go to where the error is, but it doesn't show any error. For example it doesn't show this fill is wrong format or any error. 3. I fill up all the form, when submit, theres no submission confirmation
9	Tick box		Make the alert with red colour indicating required
10	Long text submission box		1. When full screen, its overlapping. 2. suggestion using different long text form.
			Doesn't require this part. Remove it
11	Form UI		https://myinovasi.com/submitaproblem design example 1. Redesign form
GUIDELINE PAGE			

1	sample		Redesign sample. The design it too tight, add some padding.
2	Border box		1. Remove the grey border box on all 2. theres 2 border, one on the background. Second it on the card. 3. unexplained white between the card.
3	Final guidance		Just redirect to top of the page. Instead of showing the from below.
4	UI		it fits to tight, loosen a bit With border
SUCCESS SPOTLIGHT PAGE			

1	graph		Use softer colour pallete
2	View full impact button		it doesn't redirect to the top of the website
	DIGITAL LAB PAGE		
1	button		1. the view problem statement doesn't redirect to correct link 2. remove the digital lab button.
2	logo		1. Can put logo -aws -microsoft -google -amd
